School Improvement Plan Introduction

Silver Creek Middle School

This school improvement plan was developed using a vision-based and data-driven process called *Vision-to-Action* that was developed by the Indiana Student Achievement Institute. In addition to containing the strategies our school and community identified as key to raising student achievement and closing achievement gaps in our school, this plan contains strategies that meet the expectations of:

- Indiana Student Achievement Institute
- PL221

Participation

The following people were involved in developing this School Improvement Plan

- Teachers
- Students
- Parent representatives
- Community representatives

Process

Those involved in developing this School Improvement Plan participated in a series of discussions related to the *Vision-to-Action* steps:

1. Establish a local culture of high expectations
2. Create a common vision for student success
3. Analyze achievement data and set realistic data targets for each of the next three years
4. Analyze force field data and identify concerns within the following areas.
 - Academic expectations
 - Curriculum content
 - Instructional practices
 - Classroom assessment
 - Extra help
 - Student guidance
 - Learning environment
5. Research strategies to address our concerns and select high-leverage strategies to implement
6. Develop a to-do list for each strategy

Using Data for Decision-Making

The Vision-to-Action process relies heavily on data as a foundation for decision-making.

1. Achievement Data – To what degree are students prepared for success at the next educational level, and ultimately for success in postsecondary education and a global economy?
2. Force Field Data – What conditions in the school and community interfere with high student achievement?
3. Strategy Data – Is the strategy having the desired impact on adults and students?

Implementation Next Year

Our work next year will be guided by the to-do list that we have developed for each strategy.

Questions about the School Improvement Plan should be directed to the building principal.

Who Wrote this School Improvement Plan?

Many individuals were involved in the creation of this school improvement plan.

Groups and Roles

The **Steering Team** is comprised of educators, a parent, and a business representative. The Steering Team's role is to help the Full Faculty and Community Council 1) analyze data, 2) discuss key questions related to school improvement planning in an open and honest manner, and 3) reach consensus in decisions related to school improvement.

The **Full Faculty** is made up of all educators. The role of the Full Faculty is to 1) analyze data, 2) discuss key questions related to school improvement planning in an open and honest manner, and 3) reach consensus with each other and the Community Council for decisions related to school improvement.

The **Community Council** is comprised of parents and representatives of community stakeholder groups. All parents were invited to be part of the Community Council and any interested parent was welcome to join the Council. The role of the Community Council is to 1) analyze data, 2) discuss key questions related to school improvement planning in an open and honest manner, and 3) reach consensus with each other and the Full Faculty in decisions related to school improvement.

The **Student Body** includes every student enrolled in the school. The role of the Student Body is to 1) review data, 2) discuss key questions related to school improvement planning in an open and honest manner, and 3) provide input for the Full Faculty and Community Council.

Discussion Topics

The Full Faculty, Community Council and Student Body participated in guided discussions about the following topics. Written summaries of all discussions were developed and are on file at the school.

- Discussion 1: Global Economics
- Discussion 2: Vision for Student Success
- Discussion 3: Achievement Data Analysis and Achievement Goals
- Discussion 4: Force Field Data Analysis (student needs) and Areas of Concern
- Discussion 5: Strategy Selection

Steering Team

- Reid Bailey - Administrator
- John Cortie - Community Representative
- William B. Densford - Community Representative (Business)
- Al Eckert - Administrator
- Phillip Eckert - Parent/Guardian
- Jill Gerlach - School Counselor
- Gary Hawn - Teacher
- Dana Landers - Teacher
- Christy Nunn - Teacher
- Nicole Warren - School Counselor

Strategy Chairs

- Cindy Bradford
- Al Eckert
- Jill Gerlach
- Gary Hawn
- Christy Nunn
- Christy Nunn
- Julie Posante
- Nicole Warren
- Shallon Willen

Community Council

- Doug Coffman - School Board Member
- Brent Densford - Parent
- Kerri Eckert - business
- Phillip Eckert - parent
- Wendy Eckert - Parent
- Cindy Mason - Parent
- Chad Nunn - Business
- Teresa Summers - Parent

Vision Statement

The Vision Statement was developed by all educators, all students, and members of the community and is reviewed and updated annually. The foundation of the statement identifies the core convictions upon which this school improvement plan is built and answers the question, "What do our students deserve in order to be successful learners, responsible citizens, and productive members of a global economy?" The second part of the vision statement describes ideal adults who are striving to provide students with the things they deserve in order to achieve at a rigorous level. The third part of the vision statement describes ideal students in a school and community where adults live by their convictions. The last part of the vision statement includes ideal data that represent the community's dreams. This lofty data serves as the focal point for the remainder of the school improvement plan and requires the school and community to work toward every student succeeding at a high level.

We believe all students deserve:

We believe all students deserve a drug free, safe, clean, technologically modern, well-equipped, well-staffed and trained learning environment in which to perform. We believe all students deserve a respectful, caring school community, which encompasses family, peers, support staff, and teachers to provide our young adults with an atmosphere to realize their full potential and exceed mandated standards. We believe all students deserve positive opportunities and challenging curriculum to enhance educational endeavors.

All adults in our community are living by these core convictions daily and as a result, show the following attitudes and actions:

All adults in our community are living by these core convictions daily and as a result show the following attitudes and actions. Silver Creek Middle School faculty members stress the importance of maintaining our safe school environment by providing a modern, technologically advanced physical environment for all students, as well as supporting a drug-free, safe, and clean building. Adults also provide instruction and outside opportunities that challenge and motivate students to learn, maximize their potential and accept responsibility for actions. By setting the examples themselves, faculty, staff and parents ensure students are given the respect they deserve, and students in turn are respectful to others.

In this environment where all adults are living by their core convictions, all students:

In the environment where all adults are living by their core convictions, all students have high expectations of themselves. Students fully participate in the educational process by taking advantage of all opportunities to enhance learning. Students maintain and maximize the physical resources provided for their education and are respectful, positive role models. All students support a safe environment by abstaining from the use of drugs, alcohol, and tobacco, while exemplifying mature behavior in making rational, responsible decisions. As a result of living by these core convictions, students understand accountability for their actions. In the school where both students and adults are living to core convictions, 100% of the student body will achieve an A+ in citizenship, enroll in rigorous curriculum, complete all homework, master standards in all areas, pass ISTEP, and participate in extra-curricular athletic and academic activities.

As a result of these efforts, our school's student achievement data is as follows:

- % of students who pass ISTEP in all tested grades.: 100%
- % of students who pass all core classes.: 100%
- % of students who pass language arts ISTEP in all tested grades.: 100%
- % of students who pass math ISTEP in all tested grades.: 100%
- % of students who enroll in and pass pre-algebra or higher in 8th grade.: 100%

Academic Goals

The academic goals were established after a thorough analysis of multiple achievement data assessments including the state math assessment, state English / language arts assessment, student mastery of each Indiana Academic Standard, and report card grades. A full list of academic assessments is found in the "Force Field Excerpts" section of this plan. Other types of data are discussed in the Needs Assessment section of this plan.

The Full Faculty, Community Council (including parent representatives), and Student Body were involved in the analysis of the achievement data. The following questions were addressed during the data analysis.

- How does this data compare to our vision (ideal) data?
- What specific data fields disturb us?
- What specific data fields please us?
- Where do we observe achievement gaps?

Using a consensus based decision-making model, the Full Faculty and Community Council (including parents) first identified a small number of broad academic areas on which the school and community agreed to focus their energy next year. Then, the teachers and Community Council members "drilled down" the data within those areas and identified specific courses or academic standards that, if improved, would impact the broader academic areas. Both the broad academic areas and the specific academic areas are included as goals below. Data targets that the educators and community members felt most strongly about were then provided to the students for their input. Finally, the educators and community members agreed to numerical goals that the school would strive to reach by the end of next school year. These goals fall between the current student data and the vision (ideal) data.

When reading the data tables below, please note that the title of each table includes:

- The group of students targeted to meet the goal
- The benchmark that those students will reach

The numbers in the tables reflect baseline data for past years and the target data for future years. The vision data represents our ideal data. It is the mission of our school to work toward this ideal.

All Students (126 days) - ISTEP PL221 Category Placement Performance

2007-2008		2008-2009		2009-2010		2010-2011		2011-2012		2012-2013		Vision Data

49%	68%	70%	70.4%	72%		74%		76%		78%		100%

Needs Assessment / Areas of Concern

The Areas of Concern were established after a comprehensive needs assessment that included a survey of all educators, all students, parents and community members. Survey data for students and parents were disaggregated by ethnicity and economic level. The needs assessment also included a collection of data that reflected specific student needs (e.g. attendance rate), and a summary of discussion responses to inquiry questions about areas that might be interfering with learning in the school and community. The collection of data provided information about the school's expectations for student achievement, curriculum, instruction, classroom assessment, extra help, student guidance and the learning environment.

All educators and the Community Council (including parent representatives) were involved in the analysis of the student needs data. Specific attention was given to areas within the classroom that are interfering with learning. The following questions were addressed during the data analysis.

- What data indicate an area that is interfering with achievement in our targeted academic areas for improvement?
- What data indicate an area that is interfering with achievement for the student group we have targeted for improvement?

The student body was asked to respond to an open ended question, "What is interfering with learning at our school?"

Using a consensus based decision-making model, the Full Faculty and Community Council identified key areas that concerned them because they were interfering with students' ability to reach the established academic goals and more specifically, were interfering with the achievement of the targeted student group. The Full Faculty and Community Council agreed to address these "Areas of Concern" through targeted strategies next year.

The student needs assessment will be conducted again in the future to analyze the impact of the strategies included in this plan.

The Areas of Concern identified by our Full Faculty and Community Council (including parents) are listed below.

Local Areas of Concern

We are concerned that... Our Free and Reduced students are not achieving at the level of paid lunch students

Mastery Grade Data and ISTEP data supports an achievement gap between our paid lunch and free and reduced lunch students. We are especially concerned because in this economy our free and reduced population is increasing.

Required Areas of Concern

F. Encourage Rigorous Curriculum

I. Focused Academic Area

U. Focused Student Group

Strategies

Strategies were established after identifying 1) Achievement Goals (see the Achievement Goals section), and 2) Areas of Concern (see the Needs Assessment & Areas of Concern section). Educators researched possible strategies for addressing each Area of Concern and then presented possible strategies to Full Faculty and Community Council for their consideration. The student body was provided with a list of Areas of Concern and asked to provide their input regarding strategies the school and community could employ to address the concerns. Using a consensus based decision-making model, the Full Faculty and Community Council (including parent representatives) agreed to several strategies to implement next year.

Strategy Data: Strategy data will help the Full Faculty and Community Council determine the degree to which the strategy has changed adult practices. Baseline data was collected this year. Follow-up data will be analyzed at the end of each semester next year. Combined with the needs assessment data (including student surveys) and the achievement data, our school will have a good understanding of the success of the strategies in meeting student needs. The strategy data tables can be found in the Strategy Data section of this plan.

Strategy To-Do Lists: Each strategy has been assigned a Strategy Chair. In some cases, the Strategy Chair asked others to form a Strategy Task Force. For almost all strategies, the Strategy Chair developed a detailed "To-Do" list that includes activities related to 1) implementation, 2) professional development, 3) anti-resistance (helping those impacted by the strategy to embrace the strategy), and 4) strategy evaluation. The strategy to-do lists can be found in the Strategy To-Do List section of this plan.

The strategy titles and descriptions are listed below:

Local Strategies

Group Free and Reduced 7th graders in den for ISTEP Remediation

We will group 7th grade Free and Reduced students who failed ISTEP or came within 20 points of failing and any student who moves into the school, into den class with Mr. Hawn. This will be scheduled for the 2010-2011 school year. In this class students will work on ISTEP Remediation, organization, study skills, and making sure agendas are filled out.

Impact Level: Low Impact

Focus: Specific

Required Strategies

F. Encourage Rigorous Curriculum: Acuity Testing

Our school is doing a pilot program with acuity testing in our core classes. Students are tested during the year during four testing windows. Our building coach and counselors have started the process with our teachers and now our teachers are doing it on their own. Acuity testing gives teachers immediate feedback on deficiencies on certain concepts. The program can also design lessons that will help students improve their ability in the deficient area. This has occurred during this school year and we plan on continuing to use it next year.

Impact Level: Low Impact

Focus: General

F. Encourage Rigorous Curriculum: Foreign Language (High School Credit)

We currently offer Spanish I for H.S. credit for our honors 7th grade students. This started in the 09-10 school year because the H.S. wanted students to be able to complete 6 years of Spanish. We also offer Spanish II for our 8th graders. Our 8th grade students can also take French at the High School. It is close enough they can walk to take the course. This is ongoing and will continue next school year. The counselors determine who takes these courses based on interest and their ranking on high ability criteria.

Impact Level: High Impact - Inside

Focus: Specific

F. Encourage Rigorous Curriculum: Students have opportunity to take selected high school courses for credit.

Our students are allowed to take Algebra I and II, Geometry, Spanish I and II, Computer Applications, and in some cases Freshmen Engineering for H.S. credit. This has been in place the last few years and is ongoing. Through the years we have increased the offerings from Algebra I only to those courses listed above. Next year Algebra II will be a new course students will take. This is determined by the counselors with teacher recommendation. Math placement tests taken as 5th graders also determine the track as far as math is concerned in most cases. The H.S. counselors and the H.S. principal also have been very cooperative in giving us slots in their classes and allowing a Spanish teacher to come for two periods a day. We have a good

working relationship with the high school and because of close proximity and cooperation we've been able to give our students this unique and outstanding opportunity.

Impact Level: High Impact - Inside

Focus: General

I. Focused Academic Area: Math Skills and Concepts - Math Labs

We have used math labs for some time now. We started with a lab in the 6th grade and since have expanded it to where we have two math labs in the 6th grade and two math labs in the 7th grade. Students that have failed ISTEP or those that have barely passed are the targeted group. Now we have that group split even more to where the lower half goes into one math lab and the higher half goes into another math lab. The math lab concept is one where one period is devoted to lecture and teaching of math skills and concepts and the other period is devoted to more practice, more time to do do homework, or additional time for the teacher or aide to work in small groups or one on one with a student.

Impact Level: High Impact - Inside

Focus: Specific

I. Focused Academic Area: Reading Comprehension - Novels

Students going into the 7th grade will be given the opportunity to take an elective course entitled "novels". The teachers will allow the students to choose from selected novels. The teachers will use related writing prompts and instructional methods that stress reading comprehension.

Impact Level: High Impact - Inside

Focus: General

I. Focused Academic Area: Reading Comprehension - Reading Counts

Language arts teachers in the 6th,7th,and 8th grades will require all students to read books that are identified as reading counts books in the library. Upon completion of the novel, all students will be required to take and pass a reading counts quiz based upon comprehension of the book. The 6th grade language arts teacher requires 1 book per nine weeks grading period, 7th grade teacher requires 2 books per nine weeks, the and 8th grade language arts teacher requires 3 books per nine weeks. All three teachers will allow students to read more books than the number required for extra credit.

Impact Level: High Impact - Inside

Focus: Specific

I. Focused Academic Area: Writing Skills - Criterion

Computer based "Criterion Writing Program" will be made available to all teachers in all subject areas. The program will be used by students to type their essays, research papers, and journals. The program will be able to grade the student's grammar, sentence structure, and vocabulary. The program also gives the students the opportunity to correct their mistakes and have the paper regraded. Consequently, this will free up the teachers so they can grade content along with the students being able to improve their writing skills without penalty. By the start of the 2010-2011 school year, the program and computer labs will become available to all faculty members.

Impact Level: High Impact - Inside

Focus: Specific

U. Focused Student Group: Free and Reduced students - Study Club

Study Club is a program that meets on Tuesdays and Thursdays after school from 3:00 to 4:00. Students are provided with a snack and drink. Teachers, counselors, and aides supervise and help students with their homework or tutor them. We also utilize student tutors from the high school. It is open to all students but we have tried to target free and reduced students and encourage them to take part in the program.

Impact Level: High Impact - Outside

Focus: General

U. Focused Student Group: Free and Reduced students and Special Education students- Read 180

Read 180 is used as a supplement for students that read at two grade levels below their current level. Students are split in to three groups and the groups rotate through three different activities. One meets with the teacher at a white board and works on reading comprehension. The next group works on the computer and they read passages and answer questions that test their reading comprehension. The third group reads books conventionally and also are tested on their comprehension. After several months the students are retested to get a new and hopefully improved lexile score. Students were pulled out of elective classes and put into read 180 which is a two period block of classes. Read 180 gives the Special Ed and Free and Reduced lunch students the additional support they need to develop reading comprehension skills.

Impact Level: High Impact - Inside

Focus: Specific

U. Focused Student Group: Special Education Language Arts - Plugged Into Reading

Plugged into Reading is a program that is used throughout the year in our special education classes. Students follow along in the book while listening to the book being read to them on an mp3 players. Students can slow down or speed up the pace of the amount read to them.

Impact Level: High Impact - Inside

Focus: Specific

U. Focused Student Group: Special Education Language Arts - System 44

System 44 is a reading program for special education students. It is for students that are reading at a beginning to a second grade reading level. In some cases we may have some general ed students in the program but priority will be given to our low reading special education students. They will meet in this class daily for 45 minutes or 50 minutes depending on the day of the week. They will remain in this class the entire year. Mrs. Bradford has received training and we are just waiting on the licenses and the programs to be installed on the computers. This will be a class that our special education students will take. The plan is to have this program in place or to have it put in place in the next school year.

Impact Level: High Impact - Inside

Focus: Specific

Strategy Data

Strategy data will help the teachers and Community Council determine the degree to which the strategy has changed adult practices. Baseline data was collected this year. Follow-up data will be analyzed at the end of each semester next year. Combined with the needs assessment data (including student surveys) and the achievement data, our school will have a good understanding of the strategy's success in meeting student needs. The strategy data tables below indicate 1) the group of adults or students that are expected to change as a result of this strategy, 2) the desired practice(s), and 3) what the school will count to determine the degree to which the practice(s) changed.

Required Strategies

F. Encourage Rigorous Curriculum: Acuity Testing

The percent of teachers that are differentiating lessons

Baseline 09-10	Follow Up 10-11 1st Semester / 1st Trimester		Follow Up 10-11 2nd Semester / Last Trimester	
Actual	Target	Actual	Target	Actual

To-Do List

After the strategies were selected for next year, each strategy was assigned to a Strategy Chair. In some cases, the Strategy Chair asked others to form a Strategy Task Force. For almost all strategies, the Strategy Chair developed a detailed "To-Do" list that includes activities related to 1) implementation, 2) professional development, 3) anti-resistance (helping those impacted by the strategy to embrace the strategy), and 4) strategy evaluation. At the beginning of next year, each strategy chair will go over their strategy's "To-Do" list with the entire faculty. Throughout the year, each strategy chair will check off each strategy activity as it is completed. At the end of the first semester, each strategy chair will present the percentage of completed activities to the Full Faculty and Community Council. If the strategy activities were not fully implemented, the chair will facilitate a discussion about changes that will occur during the second semester to ensure that all activities are completed.

Report by strategy. Showing completed and yet-to-be-completed action steps.

Encourage Rigorous Curriculum

Sep 10, 2010: Acuity Testing Professional Development For New or Current Teachers not trained **Person:** Christy Nunn

Oct 10, 2010: Teachers will continue to work with district acuity coach to better utilize test results in their lesson plans. **Person:** Christy Nunn

Nov 30, 2010: Collect fall data: The percent of teachers that are differentiating lessons **Person:** Christy Nunn

Jun 30, 2011: Collect spring data: The percent of teachers that are differentiating lessons **Person:** Christy Nunn

Focused Academic Area

Oct 10, 2010: Teachers will be trained on Acuity Testing in all Subject Areas **Person:** Christy Nunn

Oct 12, 2010: Computer Labs will be made available for Criterion Testing **Person:** Mary Ann Losey

Nov 10, 2010: Students will begin Criterion Testing **Person:** Christy Nunn

Mar 1, 2011: Criterion Testing will be evaluated for School Improvement Plan for the next school year **Person:** Christy Nunn

Professional Development Summary

Alignment with the School Improvement Plan: The Professional Development Plan is directly aligned with strategies found in the School Improvement Plan. Professional development activities enhance educator's knowledge within one or more of the following areas: a) expectations, b) curriculum content, c) classroom instruction, d) classroom assessment, e) extra help, f) guidance, and g) the learning environment. The amount of funding allocated for each professional development activity and the funding source is listed for each professional development activity.

Effective Learning Process: The Professional Development Plan was written by teacher-leaders and includes activities that will help teachers develop the knowledge and skills needed to successfully implement the strategies listed in the School Improvement Plan. The plan includes a variety of formats for professional development. Activities have been embedded in the school day as appropriate. The plan also includes activities designed to provide teachers with feedback over time. Finally, "strategy data" is collected for comprehensive strategies that identifies the degree to which the strategy has brought about a positive changes in adult practices.

Professional Growth Environment: Each strategy is supported by a "strategy chair." Strategy chairs are responsible for 1) writing (with support from colleagues) a strategy plan including on-going professional development activities, anti-resistance, and evaluation activities, 2) providing on-going mentoring their colleagues in the implementation of the strategy, 3) analyzing the effectiveness of the strategy, and 4) making a recommendation to the faculty with respect to whether or not the strategy should be sustained.

F. Encourage Rigorous Curriculum: Acuity Testing

Acuity Testing Professional Development For New or Current Teachers not trained

Brief Description: Current Teachers that haven't been trained or new teachers will be trained on how to administer Acuity Testing and how to use the results to remediate their students.

Intended Participants: Teachers, Counselors, Administrators

Date: Sep 10, 2010

Activity Purpose: Skill Building

Activity Format: Presentation

Funding: School's Professional Development Fund

Does this activity occur during the school day? Yes

I. Focused Academic Area: Writing Skills - Criterion

Teachers will be trained on Acuity Testing in all Subject Areas

Brief Description: Teachers will be trained on Acuity Testing in all Subject Areas

Intended Participants: Teachers, Counselors, Administrators

Date: Oct 10, 2010

Activity Purpose: Information, Skill Building

Activity Format: Presentation

Funding: School's Professional Development Fund

Does this activity occur during the school day? Yes

Relationship Report: Areas of Concern / Strategies / Achievement Goals

This report shows the relationship between the Areas of Concern, Strategies, and Achievement Goals. For each Area of Concern, the report shows 1) the strategies that will enable the school to successfully address the concern and 2) the achievement goals that will be positively impacted when the concern is successfully addressed.

Local Areas of Concern

We are concerned that... Our Free and Reduced students are not achieving at the level of paid lunch students

Data Targets Influenced by This Concern:

- Free or reduced lunch -- Percent Passing Language Arts ISTEP

Strategies to Impact This Concern:

- Group Free and Reduced 7th graders in den for ISTEP Remediation
- U. Focused Student Group: Free and Reduced students - Study Club
- U. Focused Student Group: Free and Reduced students and Special Education students- Read 180

Required Areas of Concern

F. Encourage Rigorous Curriculum (PL221)

Data Targets Influenced by This Concern:

- All Students (126 days) -- ISTEP PL221 Category Placement Performance

Strategies to Impact This Concern:

- F. Encourage Rigorous Curriculum: Foreign Language (High School Credit)
- F. Encourage Rigorous Curriculum: Students have opportunity to take selected high school courses for credit.
- F. Encourage Rigorous Curriculum: Acuity Testing

I. Focused Academic Area (PL221)

Data Targets Influenced by This Concern:

- All Tested Grades -- Percent Passing Reading Comprehension ISTEP

Strategies to Impact This Concern:

- I. Focused Academic Area: Writing Skills - Criterion
- I. Focused Academic Area: Reading Comprehension - Reading Counts
- I. Focused Academic Area: Reading Comprehension - Novels
- I. Focused Academic Area: Math Skills and Concepts - Math Labs

U. Focused Student Group (PL221)

Data Targets Influenced by This Concern:

- Free or reduced lunch -- Percent Passing Language Arts ISTEP
- Special Education -- Percent Passing Language Arts ISTEP
- Special Education -- Percent Passing Math ISTEP

Strategies to Impact This Concern:

- U. Focused Student Group: Special Education Language Arts - System 44
- U. Focused Student Group: Special Education Language Arts - Plugged Into Reading
- U. Focused Student Group: Free and Reduced students and Special Education students- Read 180
- U. Focused Student Group: Free and Reduced students - Study Club

Force Field Excerpt

The Force Field reports are lengthy data reports that help the Full Faculty and Community Council (including parents) identify Areas of Concern (student needs). The Force Field excerpt found below contains information that must be included in the School Improvement Plan to meet various requirements of Public Law 221 and if applicable, Title I Schoolwide.

A. Where is the public copy of your school's curriculum located?	Counselor's Office
<p>B. What rules or statutes would you like to waive in order to promote student learning?</p> <ul style="list-style-type: none"> ● Identify the specific statute and and/or rule you wish to waive. ● Identify the educational strategies this waiver would allow you to implement that could not be implemented under current statute and rule. ● Explain the benefit to student achievement. ● Describe the evaluation process that would be used to measure the success of these strategies. 	none
C. List the titles of the assessment instruments that are used in addition to ISTEP+ / ECA and give a brief description of each.	ISTEP+ only
