School Improvement Plan Introduction

Fremont Middle School

This school improvement plan was developed using a vision-based and data-driven process called *Vision-to-Action* that was developed by the Indiana Student Achievement Institute. In addition to containing the strategies our school and community identified as key to raising student achievement and closing achievement gaps in our school, this plan contains strategies that meet the expectations of:

- Indiana Student Achievement Institute
- Indiana Rules and Regulations

Participation

The following people were involved in developing this School Improvement Plan

- Teachers
- Students
- Parent representatives
- Community representatives

Process

Those involved in developing this School Improvement Plan participated in a series of discussions related to the *Vision-to-Action* steps:

1. Establish a local culture of high expectations
2. Create a common vision for student success
3. Analyze achievement data and set realistic data targets for each of the next three years
4. Analyze force field data and identify concerns within the following areas.
 - Academic expectations
 - Curriculum content
 - Instructional practices
 - Classroom assessment
 - Extra help
 - Student guidance
 - Learning environment
5. Research strategies to address our concerns and select high-leverage strategies to implement
6. Develop a to-do list for each strategy

Using Data for Decision-Making

The Vision-to-Action process relies heavily on data as a foundation for decision-making.

1. Achievement Data – To what degree are students prepared for success at the next educational level, and ultimately for success in postsecondary education and a global economy?
2. Force Field Data – What conditions in the school and community interfere with high student achievement?
3. Strategy Data – Is the strategy having the desired impact on adults and students?

Implementation Next Year

Our work next year will be guided by the to-do list that we have developed for each strategy.

Questions about the School Improvement Plan should be directed to the building principal.

Who Wrote this School Improvement Plan?

Many individuals were involved in the creation of this school improvement plan.

Groups and Roles

The **Steering Team** is comprised of educators, a parent, and a business representative. The Steering Team's role is to help the Full Faculty and Community Council 1) analyze data, 2) discuss key questions related to school improvement planning in an open and honest manner, and 3) reach consensus in decisions related to school improvement.

The **Full Faculty** is made up of all educators. The role of the Full Faculty is to 1) analyze data, 2) discuss key questions related to school improvement planning in an open and honest manner, and 3) reach consensus with each other and the Community Council for decisions related to school improvement.

The **Community Council** is comprised of parents and representatives of community stakeholder groups. All parents were invited to be part of the Community Council and any interested parent was welcome to join the Council. The role of the Community Council is to 1) analyze data, 2) discuss key questions related to school improvement planning in an open and honest manner, and 3) reach consensus with each other and the Full Faculty in decisions related to school improvement.

The **Student Body** includes every student enrolled in the school. The role of the Student Body is to 1) review data, 2) discuss key questions related to school improvement planning in an open and honest manner, and 3) provide input for the Full Faculty and Community Council.

Discussion Topics

The Full Faculty, Community Council and Student Body participated in guided discussions about the following topics. Written summaries of all discussions were developed and are on file at the school.

- Discussion 1: Global Economics
- Discussion 2: Vision for Student Success
- Discussion 3: Achievement Data Analysis and Achievement Goals
- Discussion 4: Force Field Data Analysis (student needs) and Areas of Concern
- Discussion 5: Strategy Selection

Steering Team

- Nancy Bowen - Teacher
- Lucy Cress - Teacher
- Mark Fowerbaugh - Administrator
- Christine Seiler - Parent/Guardian
- Jennifer Squires - Teacher
- Mary Ann Wehrenberg - School Counselor
- Terri White - Teacher

Strategy Chairs

- Nancy Bowen
- Mark Fowerbaugh
- Carol Hudson
- Jennifer Squires
- Mary Ann Wehrenberg

Community Council

- Wayne Berkesch - Pastor/Community/Youth Services
- Amy Bruney - High Ability/ Corporation Alignment
- Jon Bruney - High Ability/ Youth Services
- Jeff Face - Business
- Chris Folland - Business
- Angel Frain - Staff Development/Alignment

- Lisa Hufnagle - Special Education/Business
- Angela Lyon - Special Education
- Christine Seiler - School Board/ Business
- Sue VanWagner - Higher Education

Vision Statement

The Vision Statement was developed by all educators, all students, and members of the community and is reviewed and updated annually. The foundation of the statement identifies the core convictions upon which this school improvement plan is built and answers the question, "What do our students deserve in order to be successful learners, responsible citizens, and productive members of a global economy?" The second part of the vision statement describes ideal adults who are striving to provide students with the things they deserve in order to achieve at a rigorous level. The third part of the vision statement describes ideal students in a school and community where adults live by their convictions. The last part of the vision statement includes ideal data that represent the community's dreams. This lofty data serves as the focal point for the remainder of the school improvement plan and requires the school and community to work toward every student succeeding at a high level.

We believe all students deserve:

An environment where they have the opportunities, resources, and support to achieve both individual and group success. Today we will break our own record!

In order for this to happen, students should be: provided a clean, safe, structured, and welcoming environment that promotes learning, achievement, responsibility, and school pride; provided with dedicated, caring, competent teachers who love to teach and are enthusiastic and knowledgeable; exposed to a wide variety of instructional techniques, assessments, and resources; given multiple opportunities to succeed and develop their own individual talents; challenged and have high expectations for themselves and from parents, teachers, and the community; respected and trusted; responsible and accountable for themselves and their actions;

All adults in our community are living by these core convictions daily and as a result, show the following attitudes and actions:

Every day, they focus their efforts on what is best for both individual students and Fremont Middle School as a whole.

This creates teachers who: are responsible, respectful, open-minded, caring, patient, understanding, and take time to listen; put information in a way that all students can learn by using a variety of instructional methods and constantly reflect on their teaching strategies; make sure that all students understand what is being taught; are creative and imaginative and allow students to be, also; allow opportunities for all students to be successful; challenge students, give responsibilities, and have high expectations; are dedicated and have a positive attitude; are trustworthy and honest; are knowledgeable and professional; treat all students fairly; inspire students.

This creates adults who work together to help children; have strong personal integrity; are actively involved in their child's education and well-being; agree with, follow, and support school policies and discipline plans; instill a sense of pride.

In this environment where all adults are living by their core convictions, all students:

will consistently put forth their best personal effort and each day strive to be better than the day before!

In doing this, students will: come to school well fed, clean, well rested, and ready to learn; be responsible and accountable for their choices; follow the school's rules; keep a positive attitude and keep trying to succeed; be intrinsically motivated to do quality work; develop a sense of personal, community, and school pride; see the importance of an education; accept challenges and be life-long learner.

As a result of these efforts, our school's student achievement data is as follows:

- % of students who pass ISTEP math: 100%
- % of students who pass ISTEP English: 100%
- % of students who can read at or above grade level (based on NWEA data): 100%
- % of students who can write at or above grade level (based on NWEA data): 100%
- % of students who pass ISTEP science: 100%
- % of students who pass ISTEP social studies: 100%
- % of students who are computer literate: 100%
- % of students who show individual academic growth (as measured by NWEA three times a year): 100%
- % of students who are a high flyer/honor roll student: 100%
- % of students who can think, reason, and solve problems at age-appropriate level: 100%
- % of students who pass all four core classes each semester: 100%
- % of students who pass Pre-Algebra or Algebra by the 8th grade: 100%

Academic Goals

The academic goals were established after a thorough analysis of multiple achievement data assessments including the state math assessment, state English / language arts assessment, student mastery of each Indiana Academic Standard, and report card grades. A full list of academic assessments is found in the "Force Field Excerpts" section of this plan. Other types of data are discussed in the Needs Assessment section of this plan.

The Full Faculty, Community Council (including parent representatives), and Student Body were involved in the analysis of the achievement data. The following questions were addressed during the data analysis.

- How does this data compare to our vision (ideal) data?
- What specific data fields disturb us?
- What specific data fields please us?
- Where do we observe achievement gaps?

Using a consensus based decision-making model, the Full Faculty and Community Council (including parents) first identified a small number of broad academic areas on which the school and community agreed to focus their energy next year. Then, the teachers and Community Council members "drilled down" the data within those areas and identified specific courses or academic standards that, if improved, would impact the broader academic areas. Both the broad academic areas and the specific academic areas are included as goals below. Data targets that the educators and community members felt most strongly about were then provided to the students for their input. Finally, the educators and community members agreed to numerical goals that the school would strive to reach by the end of next school year. These goals fall between the current student data and the vision (ideal) data.

When reading the data tables below, please note that the title of each table includes:

- The group of students targeted to meet the goal
- The benchmark that those students will reach

The numbers in the tables reflect baseline data for past years and the target data for future years. The "vision data" represents our ideal data. It is the mission of our school to work toward this ideal.

All Students - % of students passing language arts portion of the ISTEP+ test

2008-2009		2009-2010		2010-2011		2011-2012		2012-2013		2013-2014		Vision Data

Needs Assessment / Areas of Concern

The Areas of Concern were established after a comprehensive needs assessment that included a survey of all educators, all students, parents and community members. Survey data for students and parents were disaggregated by ethnicity and economic level. The needs assessment also included a collection of data that reflected specific student needs (e.g. attendance rate), and a summary of discussion responses to inquiry questions about areas that might be interfering with learning in the school and community. The collection of data provided information about the school's expectations for student achievement, curriculum, instruction, classroom assessment, extra help, student guidance and the learning environment.

All educators and the Community Council (including parent representatives) were involved in the analysis of the student needs data. Specific attention was given to areas within the classroom that are interfering with learning. The following questions were addressed during the data analysis.

- What data indicate an area that is interfering with achievement in our targeted academic areas for improvement?
- What data indicate an area that is interfering with achievement for the student group we have targeted for improvement?

The student body was asked to respond to an open ended question, "What is interfering with learning at our school?"

Using a consensus based decision-making model, the Full Faculty and Community Council identified key areas that concerned them because they were interfering with students' ability to reach the established academic goals and more specifically, were interfering with the achievement of the targeted student group. The Full Faculty and Community Council agreed to address these "Areas of Concern" through targeted strategies next year.

The student needs assessment will be conducted again in the future to analyze the impact of the strategies included in this plan.

The Areas of Concern identified by our Full Faculty and Community Council (including parents) are listed below.

Local Areas of Concern

We are concerned that... Students say their learning is affected by the disruptions of others

Students believe that the behavior of other students negatively affects their ability to learn (65% of students agree or strongly agree with the adverse effects of other student's behavior on their own learning, while only 33% of parents and 46% of the faculty believe this statement is true)

We are concerned that... students cannot attend after-school programs due to transportation issues

Staff has consistently asked what the corporation can do to provide after-school programs and/or summer school programs to our students who need the extra practice time on homework and basic skills

We are concerned that... Students (and parents) believe they know their learning styles, but the staff does not

*Teachers do not believe that students can describe their own learning styles (only 28% of faculty agree or strongly agree that students in their classroom can describe their preferred learning style, compared with 56% of parents and 74% of students who agree or strongly agree they can describe their learning style).

We are concerned that... 1/3 of our teachers don't believe almost all of their students will pass ISTEP+

Teachers don't expect almost all their students to pass ISTEP (96% of students expect to pass 100% of parents expect their children to pass, but 64% of teachers expect almost all their students to pass ISTEP)

Required Areas of Concern

F. Encourage Rigorous Curriculum

I. Focused Academic Area

U. Focused Student Group

X. Graduation Plan

Strategies

Strategies were established after identifying 1) Achievement Goals (see the Achievement Goals section), and 2) Areas of Concern (see the Needs Assessment - Areas of Concern section). Educators researched possible strategies for addressing each Area of Concern and then presented possible strategies to Full Faculty and Community Council for their consideration. The student body was provided with a list of Areas of Concern and asked to provide their input regarding strategies the school and community could employ to address the concerns. Using a consensus based decision-making model, the Full Faculty and Community Council (including parent representatives) agreed to several strategies to implement next year.

Strategy Data: Strategy data will help the Full Faculty and Community Council determine the degree to which the strategy has changed adult practices. Baseline data was collected this year. Follow-up data will be analyzed at the end of each semester next year. Combined with the needs assessment data (including student surveys) and the achievement data, our school will have a good understanding of the success of the strategies in meeting student needs. The strategy data tables can be found in the Strategy Data section of this plan.

Strategy To-Do Lists: Each strategy has been assigned a Strategy Chair. In some cases, the Strategy Chair asked others to form a Strategy Task Force. For almost all strategies, the Strategy Chair developed a detailed "To-Do" list that includes activities related to 1) implementation, 2) professional development, 3) anti-resistance (helping those impacted by the strategy to embrace the strategy), and 4) strategy evaluation. The strategy to-do lists can be found in the Strategy To-Do List section of this plan.

The strategy titles and descriptions are listed below:

Local Strategies

Attendance

The administrative team and teachers will evaluate the current attendance policy and develop new strategies to improve student attendance. The attendance policy will be reviewed every year and changes implemented the following school year. Letters will be sent home when a child misses 5, 7, and 10 unexcused days during a school year. Students with perfect attendance will be honored at the end-of-year awards program. Perfect attendance is one eligibility criteria for students to participate in our High Flyers reward activity each grading period.

Impact Level: Low Impact

Focus: General

Students helping students

During the 2011-2012 school year, Administrators from the middle school and the high school, along with representatives from local area colleges and universities, will look into possible ways to involve both high school students and college students majoring in education in the RTI process and/or tutoring students at Fremont Middle School. Possible options would include creating a class at the high school or college level or using an existing high school or college course and adding an hourly requirement/commitment to the middle school. Once this group explores the possibilities, they will present their findings to the staff in the second semester of the 2011-2012 school year and determine what changes can be made in scheduling to implement this program in the 2012-2013 school year.

Impact Level: Low Impact

Focus: General

Required Strategies

F. Encourage Rigorous Curriculum

We will encourage students to take Algebra in the 8th grade and continue to offer high level courses in language arts and mathematics at all grade levels. Administrators, teachers in each grade level discipline and the guidance counselor will review data and target students who are falling short of the requirements for enrollment in the advanced courses. The staff will provide extra support within the regular classroom to supplement student skills each nine weeks and measurements will be taken at the end of the year to see if these students have qualified.

Impact Level: High Impact - Inside

Focus: General

F. Encourage Rigorous Curriculum: Exceptional Learners - Gifted

Grade level teams provide opportunities for expanded learning for the high ability students at FMS. Every grade level offers high ability classes in the areas of language arts and mathematics, along with additional enrichment courses. Academic teams provide 8th grade students with the opportunity to expand their knowledge in math, science, social studies, and language arts. The teams practice before and after school during the second semester. Other various activities are designed to lead students in all grade levels in different areas (School musical, Solo & ensemble, Talent show, Art show, Spelling Bee).

Impact Level: High Impact - Inside

Focus: General

I. Focused Academic Area: Consistent Writing Program

During the 2011-2012 school year, Fremont Middle School will maintain a consistent writing program for grades 5-8. All teachers will utilize writing guidelines on student assignments along with basic rubrics for grading. Language Arts teachers will continue weekly writing activities and subject area teachers will include a one paragraph writing assignment (embedded in their assessments) each nine weeks. Students will be provided feedback on their work.

Impact Level: High Impact - Inside

Focus: Specific

I. Focused Academic Area: Math Discrepancies

Every year, there will be a review and evaluation of student scores in mathematics on the Spring ISTEP+ and Spring NWEA in order to cite benchmarks and specific areas of need for the 2010-2011 school year. After the deficit areas are determined, all teachers of mathematics (general education and special education) will adjust teaching strategies and curriculum emphases to ensure that achievement standards are met. Remediation teachers will be assigned those students who do not meet grade-level mathematics standards. Throughout the school year, remediation teachers will implement and maintain documentation regarding skill-building strategies utilized. Progress will be monitored by reviewing student scores on the Winter NWEA, Spring ISTEP+, and Spring NWEA.

Impact Level: High Impact - Inside

Focus: Specific

I. Focused Academic Area: Reading Comprehension

During the 2011-2012 school year, teachers will research and evaluate research-based reading comprehension programs at the middle school level. Teachers will research educational networking sites, internet, and print media. Teachers will attend site visits and other professional development activities in order to find a program(s) to implement at Fremont Middle School. After presenting the findings and gathering input from all teachers and administrators, we will be able to begin training and implementation of the program(s) during the following school year.

Impact Level: High Impact - Inside

Focus: Specific

U. Focused Student Group: Exceptional learners - Special Education

According to law, IEP's are developed for our special education students by case conference committee members and implemented by our special education staff, instructional assistants, general education teachers, counselor, and administrators. ISTEP and NWEA testing will be administered in small groups. This addresses the accommodations indicated on the IEP's of the students. When possible the special education students are placed in general education classes with assistance from the special education teachers and their instructional assistants. Accommodations are made in the general education classrooms to assist the special education students in becoming more academically successful.

Impact Level: High Impact - Inside

Focus: Specific

U. Focused Student Group: Response to Intervention for Free/ Reduced Lunch, Male, and Special Education Students

During the 2011 - 2012 school year, teachers will continue to implement the established Response to Intervention (RTI) process. RTI is a systematic process that ensures that ALL students learn. A focus will be on how to determine benchmarks. Teachers will receive support and training in utilizing benchmarks to assess student success and achievement. RTI will target free-reduced lunch, special education, and male students who are struggling with mastering skills in the areas of reading, language, and mathematics.

Impact Level: High Impact - Inside

Focus: Specific

X. Graduation Plan

At Fremont Middle School each fall, the guidance counselor conducts classroom sessions at each grade level using the IDOE-prepared On Track mini magazine. In Grade 6, the basics of the three different Core 40 diploma options are explained and clarified. Students also complete a career interest inventory. Goal setting is discussed and explained. Using the Graduation Plan sheets from the magazine, each student writes three goals and the steps necessary to achieve those goals. Students then complete the Graduation Promise and check areas of the Promise that they believe they should do in order to graduate. Students also check their high school diploma plans. These Graduation Promises and diploma plans are shared with parents during parent/teacher/student conferences in October each year. These are then filed in the CA60's in the main office. The Graduation Plan is updated each fall with current interest inventories and learning style assessments. The Core 40 diploma options are reviewed in Grades 7 and 8. The different higher education degrees are explained in Grade 7. Students also utilize Learn More Indiana in the 7th grade and Drive of Your Life in 8th grade to research careers, course recommendations for career choices, and colleges that offer specific majors. This information is kept in each student's CA60. For our special education students who are 14 years of age, we have them complete an independent living assessment each year. These, too, are filed in the CA60's.

Impact Level: High Impact - Inside

Focus: General

Strategy Data

Strategy data will help the teachers and Community Council determine the degree to which the strategy has changed adult practices. Baseline data was collected this year. Follow-up data will be analyzed at the end of each semester next year. Combined with the needs assessment data (including student surveys) and the achievement data, our school will have a good understanding of the strategy's success in meeting student needs. The strategy data tables below indicate 1) the group of adults or students that are expected to change as a result of this strategy, 2) the desired practice(s), and 3) what the school will count to determine the degree to which the practice(s) changed.

Required Strategies

F. Encourage Rigorous Curriculum

Teachers listing of instructional strategies/processes designed to match the ability of the students

Baseline 10-11	Follow Up 11-12 1st Semester / 1st Trimester		Follow Up 11-12 2nd Semester / Last Trimester	
	Target	Actual	Target	Actual
0	8		15	

I. Focused Academic Area: Consistent Writing Program

Percent of teachers who have folder of graded student writing samples base on Principal walk-throughs

Baseline 10-11	Follow Up 11-12 1st Semester / 1st Trimester		Follow Up 11-12 2nd Semester / Last Trimester	
	Target	Actual	Target	Actual
75 %	85 %		100 %	

Percentage of teachers who have knowledge of the middle school writing program and can apply it in their discipline.

Baseline 10-11	Follow Up 11-12 1st Semester / 1st Trimester		Follow Up 11-12 2nd Semester / Last Trimester	
	Target	Actual	Target	Actual
75 %	85 %		100 %	

U. Focused Student Group: Response to Intervention for Free/ Reduced Lunch, Male, and Special Education Students

RTI documentation sheets for each remediation teacher will be checked every nine weeks by the administration and percentages calculated.

Baseline 10-11	Follow Up 11-12 1st Semester / 1st Trimester		Follow Up 11-12 2nd Semester / Last Trimester	
Actual	Target	Actual	Target	Actual
	75 %		100 %	

To-Do List

After the strategies were selected for next year, each strategy was assigned to a Strategy Chair. In some cases, the Strategy Chair asked others to form a Strategy Task Force. For almost all strategies, the Strategy Chair developed a detailed "To-Do" list that includes activities related to 1) implementation, 2) professional development, 3) anti-resistance (helping those impacted by the strategy to embrace the strategy), and 4) strategy evaluation. At the beginning of next year, each strategy chair will go over their strategy's "To-Do" list with the entire faculty. Throughout the year, each strategy chair will check off each strategy activity as it is completed. At the end of the first semester, each strategy chair will present the percentage of completed activities to the Full Faculty and Community Council. If the strategy activities were not fully implemented, the chair will facilitate a discussion about changes that will occur during the second semester to ensure that all activities are completed.

Report by strategy. Showing completed and yet-to-be-completed action steps.

Encourage Rigorous Curriculum

Feb 25, 2011: Opportunities to attend conferences on high ability **Person:** Entire task force

May 30, 2012: Prepare program components and schedule for students **Person:** Mark Fowerbaugh

Professional Development Summary

Alignment with the School Improvement Plan: The Professional Development Plan is directly aligned with strategies found in the School Improvement Plan. Professional development activities enhance educator's knowledge within one or more of the following areas: a) expectations, b) curriculum content, c) classroom instruction, d) classroom assessment, e) extra help, f) guidance, and g) the learning environment. The amount of funding allocated for each professional development activity and the funding source is listed for each professional development activity.

Effective Learning Process: The Professional Development Plan was written by teacher-leaders and includes activities that will help teachers develop the knowledge and skills needed to successfully implement the strategies listed in the School Improvement Plan. The plan includes a variety of formats for professional development. Activities have been embedded in the school day as appropriate. The plan also includes activities designed to provide teachers with feedback over time. Finally, "strategy data" is collected for comprehensive strategies that identifies the degree to which the strategy has brought about a positive changes in adult practices.

Professional Growth Environment: Each strategy is supported by a "strategy chair." Strategy chairs are responsible for 1) writing (with support from colleagues) a strategy plan including on-going professional development activities, anti-resistance, and evaluation activities, 2) providing on-going mentoring to their colleagues in the implementation of the strategy, 3) analyzing the effectiveness of the strategy, and 4) making a recommendation to the faculty with respect to whether or not the strategy should be sustained.

Students helping students

No professional development is needed for this strategy.

F. Encourage Rigorous Curriculum

Opportunities to attend conferences on high ability

Brief Description: Throughout the year, teachers of high ability students will search for and find conferences/seminars to benefit these students.

Intended Participants: Teachers

Date: Feb 25, 2011

Activity Purpose: Skill Building

Activity Format: Presentation, Site Visit

Funding: Local Funds (FMS)

Does this activity occur during the school day? Yes

I. Focused Academic Area: Consistent Writing Program

Language Arts Team Meetings

Brief Description: Each month, time will be provided for the Language Arts team to assess strengths and weaknesses of the writing program.

Intended Participants: Teachers

Dates: Sep 30, 2011; Oct 30, 2011; Nov 30, 2011; Dec 30, 2011; Jan 30, 2012; Mar 1, 2012; Apr 1, 2012; May 1, 2012; Jun 1, 2012

Activity Purpose: Feedback/Support, Refinement

Activity Format: Study Group, Peer Coaching

Funding: Local Funds (FMS)

Does this activity occur during the school day? Yes

I. Focused Academic Area: Reading Comprehension

Attend Conferences/Workshops

Brief Description: Attend conferences/workshops on reading comprehension programs

Intended Participants: Teachers

Dates: Oct 15, 2011; Nov 26, 2011; Jan 7, 2012; Feb 18, 2012; Mar 31, 2012; May 12, 2012

Activity Purpose: Information

Activity Format: Presentation, Study Group

Funding: Other Funds/Leftover Prof. Dev. Funds

Does this activity occur during the school day? Yes

Attend Site Visits

Brief Description: See schools working with reading comprehension in preparation of the reading requirements for k-6 next year.

Intended Participants: Teachers

Dates: Mar 1, 2012; Apr 12, 2012; May 24, 2012

Activity Purpose: Information, Skill Building

Activity Format: Peer Coaching, Site Visit

Funding: Other Funds/Leftover Prof. Dev. Funds

Does this activity occur during the school day? Yes

Identify possible conferences/workshops to attend

Brief Description: Each month, the reading group will pool their information and see if there are opportunities to see a program in action via presentations/conferences

Intended Participants: Teachers

Dates: Oct 1, 2011; Nov 12, 2011; Dec 24, 2011; Feb 4, 2012; Apr 28, 2012

Activity Purpose: Information

Activity Format: Talk to, Study Group

Funding:

Does this activity occur during the school day? No

Identify schools to visit/ arrange dates and times

Brief Description: Look for schools already implementing comprehension programs and initiate request to visit.

Intended Participants: Teachers

Dates: Jan 28, 2012; Feb 28, 2012

Activity Purpose: Information

Activity Format: Talk to

Funding: None Needed

Does this activity occur during the school day? No

U. Focused Student Group: Response to Intervention for Free/ Reduced Lunch, Male, and Special Education Students

Grade Level Meetings that focus on properly measuring benchmarks and maintaining RTI documents

Brief Description: Monthly meetings to ensure that the documentation and process of RTI is in full force.

Intended Participants: Teachers, Counselors, Administrators

Dates: Aug 31, 2011; Oct 1, 2011; Nov 1, 2011; Dec 1, 2011; Jan 1, 2012; Feb 1, 2012; Mar 1, 2012; Apr 1, 2012; May 1, 2012; Jun 1, 2012

Activity Purpose: Feedback/Support, Refinement

Activity Format: Talk to, Study Group, Peer Coaching

Funding:

Does this activity occur during the school day? No

Relationship Report:

Areas of Concern / Strategies / Achievement Goals

This report shows the relationship between the Areas of Concern, Strategies, and Achievement Goals. For each Area of Concern, the report shows 1) the strategies that will enable the school to successfully address the concern and 2) the achievement goals that will be positively impacted when the concern is successfully addressed.

Local Areas of Concern

We are concerned that... Students say their learning is affected by the disruptions of others

Data Targets Influenced by This Concern:

- All Students (126 days) -- ISTEP PL221 Category Placement Performance
- Free/Reduced Lunch Students -- % passing ISTEP+ Language Arts Standards
- Free/Reduced Lunch Students -- % passing ISTEP+ Math Standards
- Males -- % passing ISTEP+ Language Arts Standards
- Males -- % passing reading comprehension standards on ISTEP+
- Students with an IEP -- % of students passing Language ISTEP standards
- Students with an IEP -- % of students passing Math ISTEP standards

Strategies to Impact This Concern:

- Students helping students
- F. Encourage Rigorous Curriculum
- I. Focused Academic Area: Consistent Writing Program
- I. Focused Academic Area: Math Discrepancies
- U. Focused Student Group: Response to Intervention for Free/ Reduced Lunch, Male, and Special Education Students

We are concerned that... students cannot attend after-school programs due to transportation issues

Data Targets Influenced by This Concern:

- All Students (126 days) -- ISTEP PL221 Category Placement Performance
- Free/Reduced Lunch Students -- % passing ISTEP+ Language Arts Standards
- Free/Reduced Lunch Students -- % passing ISTEP+ Math Standards
- Males -- % passing ISTEP+ Language Arts Standards
- Males -- % passing reading comprehension standards on ISTEP+
- Students with an IEP -- % of students passing Language ISTEP standards
- Students with an IEP -- % of students passing Math ISTEP standards

Strategies to Impact This Concern:

- Students helping students
- U. Focused Student Group: Response to Intervention for Free/ Reduced Lunch, Male, and Special Education Students

We are concerned that... Students (and parents) believe they know their learning styles, but the staff does not

Data Targets Influenced by This Concern:

- Free/Reduced Lunch Students -- % passing ISTEP+ Language Arts Standards
- Free/Reduced Lunch Students -- % passing ISTEP+ Math Standards

- Males -- % passing ISTEP+ Language Arts Standards
- Males -- % passing reading comprehension standards on ISTEP+
- Students with an IEP -- % of students passing Language ISTEP standards
- Students with an IEP -- % of students passing Math ISTEP standards

Strategies to Impact This Concern:

- F. Encourage Rigorous Curriculum
- F. Encourage Rigorous Curriculum: Exceptional Learners - Gifted
- I. Focused Academic Area: Consistent Writing Program
- I. Focused Academic Area: Reading Comprehension
- U. Focused Student Group: Exceptional learners - Special Education
- U. Focused Student Group: Response to Intervention for Free/ Reduced Lunch, Male, and Special Education Students
- X. Graduation Plan

We are concerned that... 1/3 of our teachers don't believe almost all of their students will pass ISTEP+

Data Targets Influenced by This Concern:

- All Students -- % of students passing language arts portion of the ISTEP+ test
- All Students -- % of students passing Math portion of ISTEP+ test
- All Students -- % of students passing Math Problem Solving Standard
- All Students -- % of students passing Reading Comprehension Standard
- All Students -- % of students passing Reading Vocabulary Standard
- All Students -- % Passing NWEA Spring Administration of Reading
- All Students -- % passing writing application standard on ISTEP+
- All Students -- % passing writing process standard on ISTEP+
- All students -- % scoring 2 (full credit) on open-ended problem-solving questions
- All Students -- % scoring 5 or 6 on writing ISTEP+ writing prompt
- All Students (126 days) -- ISTEP PL221 Category Placement Performance

Strategies to Impact This Concern:

- Attendance
- Students helping students
- I. Focused Academic Area: Math Discrepancies
- I. Focused Academic Area: Consistent Writing Program
- I. Focused Academic Area: Reading Comprehension
- U. Focused Student Group: Exceptional learners - Special Education

Required Areas of Concern

F. Encourage Rigorous Curriculum (IN Rules)

Data Targets Influenced by This Concern:

- All Students -- % of students passing Math Problem Solving Standard
- All students -- % scoring 2 (full credit) on open-ended problem-solving questions
- All Students -- % scoring 5 or 6 on writing ISTEP+ writing prompt
- All Students (126 days) -- ISTEP PL221 Category Placement Performance

Strategies to Impact This Concern:

- F. Encourage Rigorous Curriculum
- F. Encourage Rigorous Curriculum: Exceptional Learners - Gifted

I. Focused Academic Area (IN Rules)

Data Targets Influenced by This Concern:

- All Students -- % of students passing language arts portion of the ISTEP+ test
- All Students -- % of students passing Math portion of ISTEP+ test
- All Students -- % of students passing Math Problem Solving Standard
- All Students -- % of students passing Reading Comprehension Standard
- All Students -- % of students passing Reading Vocabulary Standard
- All Students -- % Passing NWEA Spring Administration of Reading
- All Students -- % passing writing application standard on ISTEP+
- All Students -- % passing writing process standard on ISTEP+
- All students -- % scoring 2 (full credit) on open-ended problem-solving questions
- All Students -- % scoring 5 or 6 on writing ISTEP+ writing prompt
- All Students (126 days) -- ISTEP PL221 Category Placement Performance
- Free/Reduced Lunch Students -- % passing ISTEP+ Language Arts Standards
- Free/Reduced Lunch Students -- % passing ISTEP+ Math Standards
- Males -- % passing ISTEP+ Language Arts Standards
- Males -- % passing reading comprehension standards on ISTEP+
- Students with an IEP -- % of students passing Language ISTEP standards
- Students with an IEP -- % of students passing Math ISTEP standards

Strategies to Impact This Concern:

- I. Focused Academic Area: Math Discrepancies
- I. Focused Academic Area: Consistent Writing Program
- I. Focused Academic Area: Reading Comprehension

U. Focused Student Group (IN Rules)

Data Targets Influenced by This Concern:

- Free/Reduced Lunch Students -- % passing ISTEP+ Language Arts Standards
- Free/Reduced Lunch Students -- % passing ISTEP+ Math Standards
- Males -- % passing ISTEP+ Language Arts Standards
- Males -- % passing reading comprehension standards on ISTEP+
- Students with an IEP -- % of students passing Language ISTEP standards
- Students with an IEP -- % of students passing Math ISTEP standards

Strategies to Impact This Concern:

- U. Focused Student Group: Exceptional learners - Special Education
- U. Focused Student Group: Response to Intervention for Free/ Reduced Lunch, Male, and Special Education Students

X. Graduation Plan (IN Rules)

Data Targets Influenced by This Concern:

- All Students -- % of students passing language arts portion of the ISTEP+ test
- All Students -- % of students passing Math portion of ISTEP+ test
- All Students -- % Passing NWEA Spring Administration of Reading

Strategies to Impact This Concern:

- X. Graduation Plan

Force Field Excerpt

The Force Field reports are lengthy data reports that help the Full Faculty and Community Council (including parents) identify Areas of Concern (student needs). The Force Field excerpt found below contains information that must be included in the School Improvement Plan to meet various requirements of Public Law 221 and if applicable, Title I Schoolwide.

A. Where is the public copy of your school's curriculum located?	Principal's Office (If requested)
<p>B. What rules or statutes would you like to waive in order to promote student learning?</p> <ul style="list-style-type: none"> ● Identify the specific statute and and/or rule you wish to waive. ● Identify the educational strategies this waiver would allow you to implement that could not be implemented under current statute and rule. ● Explain the benefit to student achievement. ● Describe the evaluation process that would be used to measure the success of these strategies. 	None at the current time
C. Are your school's attendance rates supportive of learning? What activities will you implement next year to increase or maintain your attendance rate?	Yes, 95.9% for the 2009-2010 school year and an ADA currently of 95.94%
D. List the titles of the assessment instruments that are used in addition to ISTEP+ / ECA and give a brief description of each.	NWEA - measures student comprehension in reading, language, and math. STAR - provides a baseline for student reading levels. COMPASS/Odyssey - provides assignments based on a student's NWEA score and measures their growth in these strategies.
